Societal Change Between Market and Organization

European Centre Vienna

Avebury

Societal Change Between Market and Organization was the theme of the Tenth Colloquium of the European Group for Organizational Studies (EGOS), held 1991 in Vienna and organized jointly by the European Centre Vienna, the Federal Academy of Public Administration, and the Institute for Advanced Studies, Vienna. From the several hundred papers presented, eleven contributions including the keynote lectures have been selected for publication in this collective volume under the authorship of John Child, Michel Crozier and Renate Mayntz.

The volume is divided into five parts. **Part I** addresses new *frontiers of knowledge in (inter)organizational research* focusing on the logic of interorganizational networks and the logic of management. **Part II** presents *concepts and discourses in organizational research*, dealing with conceptualizations of organizational development and decline, of enterprising “excellence”, as well as with understanding the subcontracting relationship. **Part III** comprises two contributions regarding *non-profit organizations and voluntary associations*: what are the challenges to create and maintain non-profits in newly emerging market economies? And can non-profit sporting leagues be analysed as markets within bureaucracies? **Part IV** takes up the issue of *industrial districts and regional competition*, focusing on contemporary relationships between firms in a classic industrial district and on the competitive advantages of regions. Finally, in **Part V** the much-debated problem of *managing the economic transformation in Central-Eastern Europe and China* and of post-socialist governance is dealt with both conceptually as well as through country case-studies.

John Child is Guinness Professor of Management Studies and Director of The Judge Institute of Management Studies of the University of Cambridge. *Michel Crozier* is President of the Centre de Sociologie des Organisations and Director of Research at the Centre National de la Recherche Scientifique in Paris. *Renate Mayntz* is Director at the Max-Planck-Institut für Gesellschaftsforschung in Cologne.

Contents

List of Figures and Tables	vii
PART I: FRONTIERS OF KNOWLEDGE IN (INTER)ORGANIZATIONAL THEORY	1
Chapter 1 Modernization and the Logic of Interorganizational Networks <i>Renate Mayntz</i>	3
Chapter 2 Will a New Logic of Management Emerge? <i>Michel Crozier</i>	19
PART II: CONCEPTS AND DISCOURSES IN ORGANIZATIONAL RESEARCH	31
Chapter 3 Metaphors of Time, Development and Decline in Organizational Discourses <i>Silvia Gherardi</i>	33
Chapter 4 The Enterprising Subjects of “Excellence” <i>Paul du Gay</i>	49
Chapter 5 Understanding the Subcontracting Relationship: The Limitations of Transaction Cost Economics <i>Hans Berger</i> <i>Niels Noorderhaven</i> <i>Bart Nooteboom</i> <i>Bartjan Pennink</i>	77

PART III: NON-PROFIT ORGANIZATIONS AND VOLUNTARY ASSOCIATIONS	99
Chapter 6 The Challenges to Creating and Maintaining Non-profits in Newly Emerging Market Economies <i>Howard P. Tuckman</i> <i>Cyril F. Chang</i>	101
Chapter 7 Non-profit Organizations: The Market within the Bureaucracy. The Case of Sporting Leagues <i>Bernard Ramanantsoa</i> <i>Bertrand Moingeon</i>	125
PART IV: INDUSTRIAL DISTRICTS AND REGIONAL COMPETITION	141
Chapter 8 Contemporary Relationships Between Firms in a Classic Industrial District: Evidence from the Social Change and Economic Life Initiative <i>Roger Penn</i>	143
Chapter 9 Is a Diamond a Region's Best Friend? Towards an Analysis of Interregional Competition <i>Max Boisot</i>	163
PART V: MANAGING THE ECONOMIC TRANSFORMATION IN CENTRAL-EASTERN EUROPE AND CHINA: TOWARDS POST-SOCIALIST GOVERNANCE	187
Chapter 10 Problems in Making the Transition to a Market Economy in Czechoslovakia <i>Ota Šik</i>	189
Chapter 11 Society and Enterprise Between Hierarchy and Market <i>John Child</i>	203
